

PRESS RELEASE

Paris, France, April 24, 2023 at 8AM CET

CBI is an advisor to Cornucopias, a massive blockchain-based game

CRYPTO BLOCKCHAIN INDUSTRIES (CBI, Euronext Growth Paris: FR0014007LW0, ALCBI) announces that it is an advisor to Cornucopias. This agreement is part of Alphaverse's strategy to assist a large number of virtual world projects.

"The Island" by Cornucopias is a blockchain-based game that features Build-To-Earn and Learn-To-Earn* functionalities, allowing players to be rewarded with and/or own lands, properties, and other NFT assets with in-game value while playing games in a fun and secure metaverse.

AlphaVerse, CBI's blockchain-based virtual world (metaverse), is currently in the opening phase for testers. The goal of AlphaVerse is to create a central hub on the blockchain that connects multiple metaverses to offer the widest possible experience. AlphaVerse is developing different universes, some of which use third-party brands. AlphaVerse is an open world that does not require users to own cryptocurrencies to open their account and visit the virtual world. Some experiences are also accessible with traditional currencies, with cryptocurrencies only required when NFTs are bought or traded.

CBI already holds 1.0% of Cornucopias Technology PTE Ltd, the company that owns the Cornucopias universe, as well as 0.5% of COPI tokens (19.2 million COPI tokens), which are valued at over USD 0.8 million.

To strengthen these strategic ties, Cornucopias and CBI have agreed to a two-year initial agreement for mutual recruitment and revenue sharing. Cornucopias will be able to promote the AlphaVerse universe and will receive 10% of the revenue generated by AlphaVerse from members of the Cornucopias community. This agreement is reciprocal, and the same provisions apply in favor of AlphaVerse, which will receive 10% of the revenue generated by Cornucopias from the AlphaVerse community.

* Build-To-Earn: building to be rewarded, Learn-To-Earn: learning to be rewarded

Disclaimer

The realization of projects, as well as their operational budget and financing plan, remain fundamentally subject to uncertainties, and the non-realization of the underlying assumptions may have a significant impact on the value of assets and liabilities.

About CRYPTO BLOCKCHAIN INDUSTRIES

CRYPTO BLOCKCHAIN INDUSTRIES ("CBI") is a French company that develops, operates, and invests in video games, business applications and selected projects relating to the blockchain, non-fungible tokens ("NFTs") and cryptocurrencies. Founded by Frédéric Chesnais, a renowned gaming industry entrepreneur and blockchain pioneer, CBI aims to develop and unlock value from a portfolio of blockchain activities across multiple industries (video games, finance, logistics, etc.) with a view to capitalizing on this technology, either directly or through partnerships. CBI has already made several investments and is currently launching AlphaVerse, a blockchain technology-based virtual world, or metaverse. CBI shares are listed on the E2 compartment (Public offer) of the Euronext Growth Paris stock exchange. Learn more at www.cbicorp.io and www.alphaverse.com.

About CORNUCOPIAS

Cornucopias' "The Island" is a massive Build-and-Earn, and Learn-and-Earn blockchain-based game in which players can be rewarded with and/or own land, properties, and other NFT-based assets with real-world value, all by playing games in a fun and safe metaverse.

"The Island" combines gaming with real-world commerce and gives opportunities for traditional and e-commerce companies to sell and promote their real-world brands, goods, and services to a hard-to-reach audience they have potentially never had access to before.

"The Island" is built on the Unreal 5 games engine, which is compatible with the PC, mobile phone, gaming consoles, and smart TVs, and will be powered, governed, and forever evolving thanks to a growing number of communities including blockchain, Unreal Game Developers, 3D artists and modelers, and general game enthusiasts.
